Longarm Quilting Services Price List

Longarm Quilting Pricing:

- Our price is based on the size of your quilt top and the complexity of the pattern.
- We charge by the square inch.
 - To calculate the square inches of your quilt top, measure the width and the length and multiply them together. This will give you the total square inches of your quilt.
 - Multiply the total square inches by the type of quilting you request.
 - Example: A quilt which measures 50" X 50" = 2,500 square inches
 - 2,500 X .02 (\$0.02 cents per square inch) = \$50.00.
- **There is a minimum quilting charge of \$40.00.**
- We charge by the square inch in 3 different categories:
